Mr. Kalman brought a new Management Report for the Board members to see and decide if they would like to move away from what they previously had, or continue using it, or a combination of both. Mr. Appel stated he had the opportunity to see the report before the meeting and he likes it, he would like to see in the future a list of who the donors are instead of having a total lump sum line of donations. Mr. Schneider feels the same way, he likes seeing an annual budget column, also having the combination of both, the presentation of having restricted, un-restricted funds is important to him. Mr. Kalman stated the finance department is going to be working internally to set up when the deposits come from TFT they are detailed and ready to be put in the financials and tide with the report. In the report they are able to see the peaks and valleys, they are already behind on registration for the Tournament this year. Mr. Schneider asked since they are looking year to date compared to this year, why they were $56,000.00 lower in income? Mr. Kalman stated there are a lot of factors involved, there were four contributors to the Tournament, they lost three and gained one (Pacific Western Bank). Also the condition of the facility was not user friendly for over six months, the expenditures were up due to having to buy furniture for the class rooms. Mr. Schneider also asked if they knew the percentage of children getting scholarships. Mr. Skogen is going to find out and let them know. Mr. Appel thought it was 30%, but not sure. On donations they have not received the computers yet but they received $10,000.00 from the Hyman Foundation as the final payment for the van. The Tournament will be on February 28th, Mr. Skogen stated there goal is to have 144 players and they are broadening the base to collect items for the silent auction.

They are looking at $3.5 million to develop the site.

d. **N. Shore Park Development** - Next Wednesday at the District Board Meeting they will be reviewing the plans for the new Park in North Shore, the environmental documents are completed, they are in the public review period, and they are going to start working on hiring a contractor to begin the work. On the Admin report it said the approximate cost is $7.8 million and actually is $1.8 million. Mr. Kalman stated this is another project the foundation can get involved with, Mr. Appel told them he had an idea for TFT on donations by naming the driving range, a hole, planting trees, etc. Mr. Kalman told them this will be part of the fund raising committee.

He suggested two people that are involved with TFT as potential members, Mike Wales and Spencer Baker. He also will be a good candidate for the Advisory Board, Director Garcia suggested Dr. Sam Lin, he is going to e-mail him to see if he is interested.

Accordingly to the bylaws they are supposed to have meetings every month. They decided to bring the potential members to the February 9th meeting and have the bios (information) by January the 26th so it can be part of the board meeting agenda. They will set-up an interview and later excuse them so they can decide if they like them, after it will be sent to the DRD board meeting on February 11th for approval.

He created a document that should be a road map to follow as they go along. The biggest change they made was reducing the revenue for the Invitational since they anticipate to lose some players. Mr. Skogen’s salary will be largely allocated to TFT, the prior Executive Director salary was coming mainly from the parks. Mr. Kalman stated regarding the $40,000.00 from the financial assistance that they only have $25,000.00 going out this year, they are going to be cautious not to over spend.
